

## United Access PC/SC LEGIC Reader

- World unique LEGIC PRIME reader with PC/SC driver**
- **Get UID via PC/SC**
  - **Transparent channel for full LEGIC command set**

### United Access PC/SC LEGIC reader

The United Access PC/SC LEGIC reader is world unique due to its standardized PC/SC interface for LEGIC PRIME technology.

Any application integrating smart card or RFID technology by using the chip unique ID according to PCSC 2.01 can be enabled with LEGIC PRIME technology with zero integration effort.

In order to provide the full functional range of the LEGIC PRIME technology a transparent channel is offered by the PC/SC reader driver.

In addition to LEGIC PRIME further 13,56 MHz RFID chips can be enabled by configuration settings.

The product is designed as a desktop device with a small footprint and modern design. It can be delivered also as an OEM product without housing like it is used for integration in desktop card printer devices.

### Features

- PC/SC 2.01 standard interface for LEGIC PRIME
- USB 2.0
- Modern design
- Zero integration effort

### Technical data

**Dimensions:** 125x85x23mm

**Weight:** 160g

**Features:** PC/SC interface for LEGIC PRIME UID, transparent channel for full command support of SM-4200

**Operating Frequency:**

13,56 MHz, ISO 14443 A/B, ISO 15693

**Reading Range:** ≤ 4 cm (depending on type of tag and antenna size)

**Operating Temperature:** Office environment

**Supported Chiptypes:**

- LEGIC PRIME MIM256/1024
- LEGIC ATC128/256-MV210
- LEGIC ATC512-MP110
- LEGIC ATC1024-MV110
- LEGIC ATC2048/4096-MP110/MP310/MP311
- AFS4096-JP10/JP11
- Mifare 1k/4k/ultralight/plus
- DESFIRE EV1
- ICODE

### Application

- Single Sign On
- Identification
- Logical Access
- Integrated enrollment
